INTRODUCTION

VMAT will be holding alongside with VIAF 2024, focus on Material Handling, Warehousing, Storage & Racking Systems, Transportation and Logistics Automation Event. In this event, VMAT will be the platform for the latest industry innovations and for exchanging ideas and insights on material handling equipment, storage & racking, warehousing, transportation, Supply Chain Solution and Logistics Automation for the future. The advantages of Vietnam's low labor costs and low rental costs are offset by product diversification, quality improvement, and the entry of large-scale high-tech companies. There is an increasing demand for a logistics automation system that can reduce labor costs by efficiently utilizing limited space by introducing various automation facilities and correcting errors in the production process in real time. The introduction and use of automated processes and industrial robots that use of the right technology are changing the manufacturing, production and distribution environment.

The exhibiting showcase of VMAT related fields:

- Material Handling
- Warehousing
- Storage & racking systems
- Transportation
- Supply Chain Solutions
- Logistics Automation

The premier trade exhibition for material handling, warehousing, storage & racking systems, transportation, supply chain solution and logistics automation.
